Sub: - "Ease of Doing Business" Business Reforms Action Plan, 2015-16
Implementation an online application for obtaining electricity
Connection

Sir,

In continuation with successful evaluation for 'Ease of Doing Business' exercise, the Department of Industrial Policy & Promotion (DIPP), Govt. of India has released Business Reforms Action Plan 2015-16. In this BRAP, there are 11 points included for Obtaining Electricity Connection. One of the point is, "Implementing an Online Application for Obtaining electricity connection" During our earlier exercise we have already provided online application facility in the web portal of respective Discom. However it is observed that such facility is not used by the applicants, and implementation of online application is not being done in the right spirit. It needs consumer awareness regarding the online application facility and mandatory use of the same to make it to be implemented in the perfect way.

Besides above as a single window mechanism for the investors, seamless integration of the Investor Facilitation Portal (IFP) of iNDEXTb with our web sites is in process to facilitate the investor through single Web Portal. In the meantime to implement the matter in the right spirit it is decided to make it mandatory to apply the LT and HT Industrial application through online Application System and it is directed that from 1st January 2016, all LT and HT Industrial applications for new Electricity Connection should be process through Online System only.

I am, therefore, directed to request you to kindly take necessary action to implement the online application system for LT/HT Industrial connection compulsorily from 01.01.2016.

Thanking you.

Yours faithfully

 5/12/2015
